RE: Universal Masking of Staff and Visitors

The Provincial MERC/PJOHSC table, continues to work together to quickly adapt to the evolving COVID-19 situation. During our frequent meetings, we have been able to identify issues and provide solutions to ensure our process rely on the best advice from public health experts. As this advice has changed rapidly, the work of this table has been imperative.

We would like to provide you with the attached document on “universal masking”. This document is a result of collaborative work between MERC/PJOHSC and Corporate Health Care, with endorsement from public health officials in the Ontario Chief Medical Officer of Health’s Office.

We ask that you review the document carefully. This new process will be operationalized quickly, and we appreciate all efforts to adapt to this new process.

Sincerely,

MERC/PJOHSC
